Yixuan Huang

yixuanhuang@example.edu | https://example.edu/yixuanhuang | GitHub

Education

Example University *Ann Arbor, MI*
M.S. in Computer Science *Expected May 2027*

Example College *Chicago, IL*
B.S. in Electrical Engineering *May 2025*

Experience

Example Robotics Lab *Ann Arbor, MI*
Research Assistant *Sep. 2025 – Present*
Robotic Manipulation, Perception, Planning
Advisor: Prof. Example Advisor

- Developed experimental pipelines for evaluating robot perception and manipulation systems.
- Implemented data processing tools for analyzing task performance across repeated trials.

Example Technology Company *Remote*
Software Engineering Intern *Jun. 2024 – Aug. 2024*
Backend Systems, Data Processing

- Built internal tools for processing structured data and generating summary reports.
- Collaborated with engineers to improve testing coverage and documentation quality.

Skills

Programming: Python, C++, Java, MATLAB
Tools: Linux, Git, LaTeX, Docker
Research Areas: Robotics, machine learning, data analysis
